

FIREGUARD

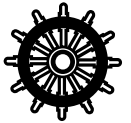

FGP4R 4 KG DRY POWDER EXTINGUISHER

Technical specification:

PRODUCT CODE	FGP4R
* Capacity:	4KG
* Fire Rating:	27A 113B
* Test Pressure Bar:	30
* Working Pressure Bar:	15
* Temp Range:	-30°C to +60°C
* Discharge Time (sec):	13
* Total Weight (Kg):	6.5 Kg
* Extinguishing Agent:	ABC 40 Dry Powder

BS EN 3
KM 591532

Features:

- * High - grade brass head assembly ensure reliability and efficiency
- * Working Pressure 14 Bar for maximum fire fighting performance give greater application
- * Long drawn high grade cold rolled steel body shell for optimum body strength with Argon welding process
- * 23mm Diaphragm pressure gauge provides a very accurate indication of extinguisher's pressure status and suction tube is PVC made.
- * Polyester external coating and oven baked adds extra protection to withstand extreme temp.
- * Simple seize and squeeze method of operation combine with controlled discharge for max fire fighting performance with a safety pin.
